12/3/2025

**To the Operators and Users of
TVP244 TMS / Tilt Measurement Systems**

**Subject:
Discontinuation of TVP244 the TMS / Tilt Measurement Systems
(delivered before 31.12.2025) and their Subproducts – End of Service Life (EOSL)**

Dear Sir or Madam,

As the developer of the TVP244 TMS / Tilt Measurement Systems, I hereby inform you on behalf of DB Systemtechnik GmbH that, in accordance with our End-of-Service-Life (EOSL) policy, we are announcing the discontinuation of technical support and services for the following products:

Product description

TVP244 Tilt Measurement System

End of Service Life Datum

31.12.2027

The product change and the discontinuation is carried out for the following reasons (see Table 1):

Table 1: Discontinuation Table

Product Name (Components/SW/HW)	Reason for Discontinuation / Remarks	End of Life / Service Date
Tilt potentiometer, analog	Change to digital potentiometer	

We will continue to offer support without guaranteed error correction until 31.12.2027. After the above-mentioned date, we will no longer be able to offer technical support, spare parts, maintenance, calibration, or modifications.

Limited Service until EOSL:

Service can only be provided under restrictions and after technical evaluation.

Table 2: Countermeasures

Recommendation for Substitute/Component/SW/HW	Limited Service until End of Service / Life (EOSL)
New potentiometer with digital interfaces	Repair is complex: Electronics may need to be adapted; after this appointment, availability and delivery time from the supplier (ASM company) depend on the supplier.
	The customer should independently keep spare parts in stock.

Recommendation for successor products:

The successor system is built digital potentiometers, providing enhanced functionality and ensuring long-term operational stability and availability.

We are pleased to offer you technical consultation and can provide tailored solutions to meet your specific requirements.

For any further questions or to discuss the design of a replacement concept in detail, our technical support team remains at your disposal.

Mit freundlichen Grüßen,
Best regards,

DB-Systemtechnik GmbH

i. V.
